AustriAlpin announces the release of its new

FC50B CobraTM Patented

The new 2 Inch (50mm) Cobra Quick Release Buckle was designed for markets and applications which prefer a “beefier” 2 Inch webbing. The new FC50B Cobra is build around AustriAlpin’s patented Cobra buckle technology . Made of high strength aluminum 7075 alloy the FC50B is very light, very strong, and very secure. With its genesis being inspired by input from Military, Spec OP, Policing, and Body Armor specialists we expect great results from the new addition to the Cobra family. Available in both fixed and adjustable versions and a variety of finishes.
